

"StudyLink Apply allows me to receive complete, verified applications in my email inbox"

StudyLink Apply

Online Recruitment Solutions

studylink.com/solutions

StudyLink a pioneer in Online recruitment

StudyLink Apply is a full service recruitment solution. You can list your courses on some of the world's top destination websites, and with the help of the StudyLink network, both online and offline, receive completed, verified applications.

We do the work, you get the benefits

StudyLink's team of counsellors are not only knowledgeable in the education systems in destination countries, but also have local insight that ensures they understand the concerns and questions that international students in each market have. We source the students, help them find the right course at the right institution and assist them with the process of applying, getting visas, funding and travel.

All you have to do is say yes to the application.

Easier for students, easier for you

With StudyLink Apply, students can shortlist their preferred institutions and courses, start and save applications, upload attachments (portfolios, personal statements, certificates etc) and then submit their application once they are ready. You will receive an email every time a counsellor approves an application, containing a link to the application in our secure delivery system. No re-typing, saving time and resources on data entry. If you prefer to look at a paper version you can print off a copy that replicates your current paper application.

Pay for success

StudyLink Apply will allow you to know how effective additional advertising spend on the network is. We won't just track views or enquiries (although we'll tell you both as a StudyLink advertiser), we will track applications.

Current Apply clients include:

StudyLink Apply Benefits

Pay for Success

You only ever pay for StudyLink Apply applications if the application is successful and the student turns up

Know what's going on

With StudyLink Apply you have access to online reporting of all applications, so you can know at a click how many students are in the pipeline, the countries they come from, how long their application has taken to process and what courses they are doing. Essential for capacity planning, orientation and marketing analysis.

Live Counsellors

You can contact our counselling team anytime with new programmes or to discuss specific applications.

Receive and Manage Applications Online

StudyLink automatically forwards applications via the StudyLink AppManager system, allowing you receive notification of all new applications by email and massively cut processing times.

Complete Applications

Our counsellors verify every application to ensure completeness and quality. If in doubt our counsellors will send you the application, but you have the assurance that you will only pay if the student is accepted and starts study with you.

Work with applications the way you want

If you like to work with a printed copy, you can create and print a full application, including attachments, in Adobe Acrobat PDF. If you need to email the application to faculty you can with a click. Or download application data to put in your student admin system.

Email updates

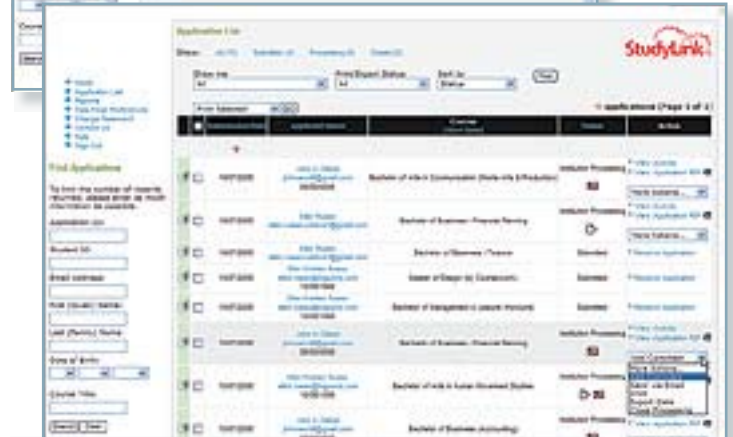

Never miss a hot application again. No hovering over the fax machine. StudyLink will email you when a new application is submitted, and will also email you reminders of the status of all your applications.

Use StudyLink AppManager on your website

As a StudyLink Apply client, you have the option of using the technology behind it, StudyLink AppManager, on your website. Versions are available customized for your website or not, and there are licensing models designed for all type and size of education provider.

"I will definitely recommend anyone looking for programs to check out StudyLink. I appreciate all your time and effort. Thanks again." Ward (USA)

"I found your help very useful. You guys are doing a fantastic job. Keep it up" Charles (Solomon Islands)
